

# EXHIBITION AREAS AND HALL LAYOUTS

5

To ensure that visitors can easily find their way around the various themed areas while at the same time bringing together exhibitors with similar products and services, selected exhibitor groups have been relocated. The section for children and teenagers as well as the fantasy area have been moved to Hall 3 so that they are located closer to the neighbouring Manga-Comic-Con in Hall 1. By locating these two subject areas closer together, we can create a comprehensive presentation for our young visitors that covers the entire spectrum of literature and provides a targeted investment in the promotion of reading.

Hall 2 will be the new home of those exhibitors previously located in Hall 3 and covers the categories of textbooks and science, fiction and non-fiction, book art and graphics, travel literature and audiobooks as well as education. Particularly for exhibitors of books on specialist subjects, this offers an ideal direct connection to the Congress Center Leipzig, where numerous trade events will be taking place.

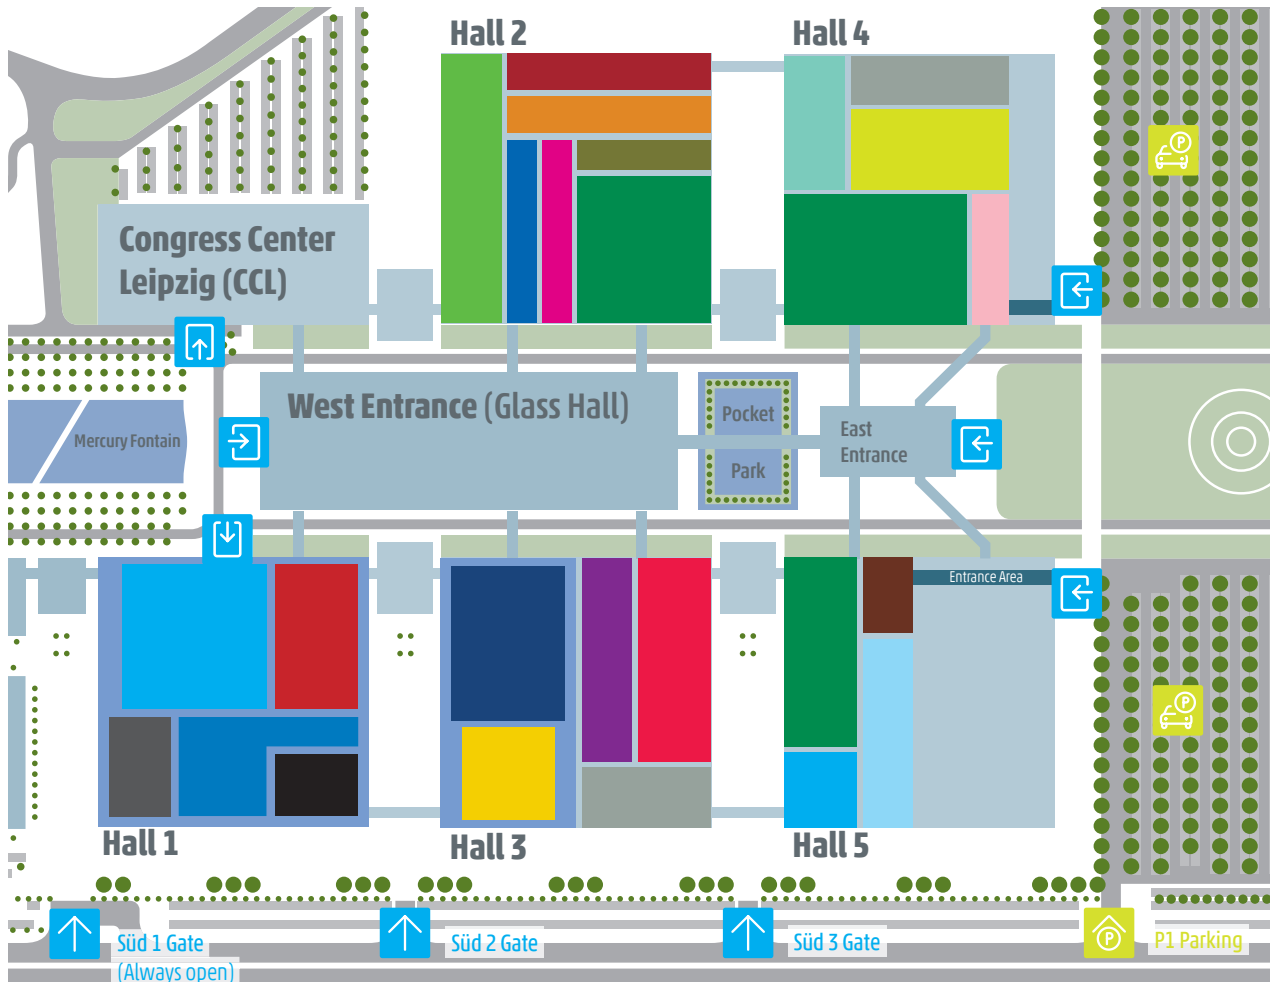

The exhibitor categories in Halls 4 and 5 will remain as before. While visitors to Hall 4 will be fromle to find books on international topics, music and religion, Hall 5 is devoted to books on art, other products apart from books, services for publishers and bookshops as well as autoren@leipzig. Fiction and non-fiction, media, newspapers and magazines will be presented in various themed areas in Halls 2 and 4 as well as the more compact Hall 5.

Stands will be allocated to exhibitors according to the time of registration, the rooms and space available, the exhibitor's needs and the possible options. Depending on the number of registrations, we will plan the hall layout and structure the exhibition areas at our own discretion. We expect to be able to announce the stand numbers in early February.

# EXHIBITION AREAS AND HALL LAYOUTS
